Isn't What It Used To Be[®]

DECRA Shake XD[™]

traditional

classic beauty of handsplit wood shake

Optional Hip & Ridge shown at rake

As the original stone coated steel roofing system, the DECRA® product line represents a perfect blending of 50 years of research and practical experience. DECRA is manufactured using the finest lightweight aluminum-zinc alloy coated steel, covered with 3M ceramic coated stone granules and sealed with our exclusive polymer coating. Offering the ultimate in performance and engineering design, DECRA Roofing Systems are the most beautiful, durable and trouble-free roofs available today.

DECRA Shake XD™ offers the classic beauty and architectural detail of a thick, rustic, handsplit wood shake combined with the superior performance and longevity of steel. Shake XD™ is lightweight, durable and provides safety and security beyond other roofing products. The steel Shake XD™ panels support foot traffic and will not crack, split, curl or break like traditional wood shakes.
